EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Zychlewicz on 4/12/05.

The application has been amended as follows:

CLAIMS

- Claim 1, line 7, before "supplying" – separately – has been inserted.
- Claim 1, line 8, before "injected" – separately – has been inserted.
- Claim 6, line 5, before "supply" – separately – has been inserted.
- Claim 6, line 6, before "injected" – separately – has been inserted.
- Claim 14, line 5, before "supply" – separately – has been inserted.
- Claim 14, line 6, before "injected" – separately – has been inserted.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not fairly teach in permissible combination the claimed invention. The prior art of record do not teach the new limitations introduced by amendment on 02/16/2005 and further to separately supply the water or steam from the fuel/air mixture of the

premixer. For Schilling and Joshi '477, there is no motivation for separately supplying water from the fuel/air mixture entering the combustor dome. Joshi 5,165,241 doesn't teach water or steam injection (multiple domes being taught by Schilling). Water injection by mixing with the fuel 51, 53 in the centerbody is taught by Campbell '4,214,435. As the fuel from 51, 53 is part of the lean fuel/air mixture of the combustor, and the water must be injected separately from the fuel/air mixture and also mix downstream of the centerbody, even modification of Joshi '241 would not arrive at the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
